

April 23, 2007 – VIA ELECTRONIC SUBMISSION

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554

Re: Ex Parte Notice – WC Docket No. 04-36, 05-196, 03-123, 94-102

Dear Ms. Dortch:

Pursuant to Section 1.1206 of the Federal Communications Commission's ("Commission") Rules, this letter serves to provide notice in the above captioned proceedings of meetings that occurred on April 20, 2007 between representatives of Intrado Inc. ("Intrado"), and the following Public Safety and Homeland Security Bureau personnel:

Dana Schaffer
Jeff Cohen
Carol Simpson
Eric Ehrenreich

In addition to the above, meetings were also held with Ian Dillner and Erica Ollsen, representing Chairman Martin.

In attendance on behalf of Intrado was the undersigned Mary Boyd, Vice President of Government & External Affairs.

In the meetings, Intrado discussed issues that were already filed in the above captioned dockets that primarily related to Automatic Location Service, Location Accuracy requirements and access to emergency services for the disabled community. Intrado relayed information regarding the need to ensure that public safety was provided with the most precise location information in order to assist with emergency response. Intrado expressed concerns that there are currently areas of the country that would not be able to meet a PSAP level accuracy compliance obligation and encouraged the Commission to work proactively to provide positive incentives allowing for the investment in and development of improved location technologies. Intrado also encouraged the Commission to convene all the 911 Stakeholders and establish a long term plan that would ensure that the best possible information is provided for our country's emergency response personnel.

Please contact the undersigned with any questions.

Very truly yours,

/s/

Mary A. Boyd
Vice President, Government & Regulatory Affairs
